

ICT Workshop Feedback

Thursday 21st May 2009

Very informative and enjoyable evening. It was suitable for the computer illiterate!

It was good to fiddle with the equipment. I wouldn't have had the opportunity elsewhere! All the staff were very informative and supportive.

20 parents attended the session.

Our aim was to

- Share the journey of ICT at Earlsfield School
- Show the variety of technology we use with the children
- Develop your confidence and knowledge about your child's experiences in ICT
- Outline the next steps in our development

We hope you learned something new!

Thank you for arranging the workshop. I love the potential of the Macs on the children's future learning.

I had no idea there was so much ICT going on in school!

20 parents completed a review of the evening

- 100% of parents felt that the evening was useful
- 100% of parents felt that they were now more familiar with the technology that their child uses in school
- 90% of parents felt more confident in talking to their children about ICT
- 90% of parents acknowledged that they now knew who to ask for advice regarding ICT
- 95% of parents were now aware of Earlsfield's next steps in its ICT development.
- 90% of parents would like to attend a future workshop

What other information would parents like to find out?

- A request was made for age appropriate websites to be added as links on the school website
- Parents felt they would benefit from future workshops
- Parents would like additional information about Virtual Learning Environments.

I was very impressed with everything the school has been using. It's amazing to see the technology that is being used in school.
