

# Reception Workshop for Parents

Thursday 26<sup>th</sup> November 2009

32 parents attended the session

Ours aim was to:

- Give parents an overview of the activities that promote their child's learning and an insight to a normal day in a reception class.
- Promote parents understanding of the different stages of phonetic, writing, number and reading development.
- Share strategies for supporting children at home.
- Provide materials and further information for supporting learning at home.

We hope this session was helpful, we will be running more next term.

We received positive feedback; these are some of the comments.

Always good to have ideas of ways to encourage their reading, writing, and numeracy at home!

There has definitely been a change since my elder son was in reception a few years ago.

I have a better understanding of what she does all day!

Really good to know how to blend a word - didn't know that until tonight!

Really lovely to be able to feel involved in their learning.

Very impressed with his learning and the skills you are teaching, it will now help us as we understand the different stages

Up until now I have not been pushing her to learn phonics at home as I was worried I was doing it wrong - now I feel more confident to teach her at home too.
