

# Reception Workshop for Parents

Tuesday 31<sup>st</sup> March 2009

34 parents attended the session.

Our aim was to

- Give parents an overview of a normal day in Reception
- Share strategies in supporting children at home with maths
- Offer an understanding of phonics and blending
- Provide materials to support children at home

We hope the evening was useful!

The progression of skills was very clear.

The new playground facilities sound really good.

It was nice to see the video of the school day - we can see what the children do!

There were lots of good writing development ideas

The video presentation was inspired!

The phonics exercise for parents really highlighted how to sound out words.
